# JET AGE

## **JET AGE**

**Check Your 6! Jet Age** was designed to closely reflect the details of jet age air combat while providing maximum playability. Building on the award-winning **Check Your 6!** classic WWII system, the game is the result of more than three years of research into air-to-air weapons, combat maneuvers, aircraft statistics, and the influence of pilot skill on combat. Combat is reflected in 3D, and statistical analysis was extensively used in the design. Former and current U.S. Air Force and U.S. Marine Corps pilots were part of the design team from the start, greatly influencing the design and mechanics of the game rules.

23 scenarios from several eras, plus four mini-campaigns from Vietnam, the Falklands, and Angola are included.

**SC03-002**  
Retails \$35.00

## **AIR WAR KOREA**

**Air War Korea** is a scenario-and-campaign book for the **Check Your 6 Jet Age** air-combat-and-campaign rules. The book provides comprehensive coverage of the air war in Korea under one cover with five campaigns and 32 scenarios. The first mini-campaign follows the start of the Korean War when UN forces attempted to stem the tide of the Communist Invasion from June to December 1950. The following three mini-campaigns cover the fight for MiG Alley, January 1951 to December 1951, the "Black Tuesday" UN B-29 attack, and the interception of the Chinese Taehwa-do Island mission in October and November 1951, and the fight for air supremacy over Korea from February 1952 to July 1953. A bonus mini-campaign is also included that covers U.S. Navy and Marine operations from 3 July 1950 to 18 November 1952. The book also features some of the Korean War's top aces, including James Jabara, George Davis, Frederick "Boots" Blesse, Boris Bokach, Gregorii Ges, Nikolay Ivanov, and Li Han. The scenarios can be played individually, linked to form mini-campaigns, or combined as one grand campaign.

## **STAR AND PYRAMID**

**Star and Pyramid** is a scenario-and-campaign book for the **Check Your 6 Jet Age** air-combat-and-campaign rules. The book provides comprehensive coverage of the air wars between Israel and Egypt between 1966 and 1973 under one cover with five campaigns and 27 scenarios. The scenarios can be played individually, linked to form campaigns, or combined as one grand campaign. The first campaign covers the Israeli surprise attack on Egypt and the first two days of air battles in the **1967 Six-Day War** while the second covers Egyptian attempts to strike back over the final four days of the war. The third campaign covers desperate Egyptian attempts to regain the initiative in the **War of Attrition** between 1969-1972 by employing new aircraft, surface-to-air missiles, and direct involvement of the Soviet Union. The final two campaigns cover the aerial struggle between Israel and Egypt during the **Yom Kippur War** in 1973. The fourth campaign spotlights the desperate struggle of the Israeli Air Force against the massive air defense systems of Egypt. The fifth campaign covers the second half of the war, when Israel renewed deep strike operations and face a surviving and fighting Egyptian Air Force.
